Goldfish

If I could leave this town I'd bold
Enjoying the lost and found and start all over
I crib the open road like birds in summer
A chance to break the mold is all that I'm afterCan you offer anything, doctor?
Help me start again
Moving forward without awkward moves
And I would be braveAnd I could leave this goldfish sea
And I could start to believe in me
And after the sun the rain would fall
And I wouldn't mind at allAnd if I could just escape this body
I know I wouldn't fake for just anybody
I claw my heart for you and keep it until I was okay
With what I do that's all that I'm afterCan you offer me anything, doctor?
Help me to start again
Moving forward without awkward moves
And I would be braveAnd I could leave this goldfish sea
And I could start to believe in me
And after the sun the rain would fall
And I wouldn't mind at all
No, I wouldn't mind at all
