# Wrong

## Virgos Merlot

So now you know
I'll spill my guts and spoil the show
I thought I stirred up quite a mess
But cleaning up just causes even more distressDid the only thing I knew to do
But having faith in something does not make it true
But I forced it for so long I knew I had it wrong
Much to proud to let it go and I knew I had it wrong
I forget who, when or what it was that made me change my tuneDid the only thing I knew to do
But having faith in something does not make it true
But I forced it for so long and I knew I had it wrong
Much to proud to let it go and I knew I had it wrongWasted pieces of life
(So now you know)
Stretching inches into miles and miles
(So now you know)
I pull the blanket from my eyes
(So now you know)
Cut the ropes and free the lies
