Different Light

Goo Goo Dolls

Brand new goo goo goo dolls
See me in a different light
I think it'll be okay
Why are you so blind that you
Can only see today
See me in a different space
That you'd expect to see
Then maybe you be taken in by(?)
Ever so close to me(?)
See me with a different face
That I've had in my past

Criticize the other jerks
Who make this madness last
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
See me in a different light (You're so blind)
