

# Starchaser

## Iron Savior

[Music by Kustner/Sielck, Lyrics by Sielck]Up in the skies  
the stars are shining bright  
on what is called the human kind  
in silent majesty  
they're watching from up there  
this overbearing planet's vanity fair  
voices in the distance  
keep on whispering to me  
now I have to follow  
to set my spirit free  
starchaser - skies are open wide  
starchaser - calling me from deep inside  
starchaser - I have crossed the line  
starchaser - I'm diving into space and time  
to be free for all so long  
I've been in search to find  
my destiny, some peace of mind  
it seems like everything  
I did just wasn't right  
life seemed to be a futile fight  
it's almost been too late  
to understand, to turn around  
but here I am  
I have been leaving ground  
starchaser - skies are open wide  
...[solo Piesel]till the end of time  
the universe is mine  
my fate lies in my hand  
and if even though  
the world will never now  
my fate lies in my very hand  
for now and for all time  
starchaser - skies are open wide  
starchaser - calling me from deep inside  
starchaser - the universe is mine  
starchaser - I'm diving into space and time  
to be free
