# I Need Your Love

## C.B. Milton

Sometimes I remember the day
Sometimes I remember you said
Pleasure's turn to pain
Our love will fade awayTime is blowing and time is growing
Only thing that I know for sure
By being here so long
Is all I want is coming homeYou can never say goodbye
To everything you've left behind
Maybe you will understand
That life is just a simple gameI need your love
You're the one I'm living for
I need your love
Can you give me one more chanceSometime I will promise you
Sometime I will cover you
Cause it hurts to be alone
All I want is coming homeYou can never say goodbye
To everything you've left behind
I can try to hold it down
Everytime you cross the lineI need your love
You're the one I'm living for
I need your love
Can you give me one more chance
I need your love
I've been here for too long
I need your love
I want you home
