Sib

Simin Ghanem

Got a nervous kind of feeling
Got a painful yellow headache
Every picture in every magazine's turned real
Every face looks out and screams at me too realCold sweat on my collar
Dripping to my boots
The waves of nauseous pain
Sets off the pressure pad alarmsGotta get outta here
Gotta get outta here
Gotta get outta here
Gotta get outta hereGotta painful swelling brain
Banging in my head
Gotta painful swelling brain
And I called off sickGotta swelling itching pain
Got me pulling out my hair
Gotta swelling itching pain
Clutching at my brainGotta painful swelling brain
In the back of my head
Gotta painful swelling brain
And I called off sickGotta swelling itching pain
Got me pulling out my hair
Gotta swelling itching pain
Clutching at my brainGotta painful swelling brain
Got me laying on the floor
Gotta painful swelling brain
Think I left my sensesGotta swelling itching pain
Seems like endless torture
Gotta swelling itching pain
Banging in my headGotta painful swelling brain
In the back of my head
Gotta painful swelling brain
And I called off sickGotta painful swelling brain
Got me pulling out my hair
Gotta painful swelling brain
Clutching at my brainGotta painful swelling brain, painful swelling brain
Driving me up the wall
Gotta painful swelling brain, painful swelling brain
Dripping out my eyes ears nose and mouthGotta painful swelling brain, painful swelling brain
Imploding my thoughts
Gotta painful swelling brain, painful swelling brain

Blasting holes in the front lawn nowGotta painful swelling brain, painful swelling brain
Clutching at my brain
Gotta painful swelling brain, painful swelling brain
Got me laying on the floorGotta painful swelling brain, painful swelling brain
Painful swelling brain, looking out at my start
Gotta painful swelling brain, painful swelling brain
Painful swelling brain, banging on my thoughtGotta painful swelling brain painful, swelling brain
Painful, swelling brain, looking out at my eyes[Incomprehensible]
Gotta painful swelling brain, painful swelling brain
Painful swelling brain, tearing me apart
