Hollywood

Nickelback

Please don't be too long, while you're gone
There ain't enough to keep me here too long
Not like the last time, I stood in line
Just enough to keep me bouncing off the wall, yeah
The new day, the new tray that comes around
Pills and all enough to kill him while he sleeps
Is this the alley we dragged him to
Just off of Hollywood and Normandy
It didn't work like she said, "It would"
Just like livin' in Hollywood
Just like a bad dream or so it seems
Just like I'm back in emergency
Oo, it didn't work like she said, "It would"
Just like livin' in Hollywood
Just like a bad dream or so it seems
Just like I'm back in emergency
Please don't be too long, while you're gone
There ain't enough to keep me here too long
Not like the last time, I stood in line
Just enough to keep me bouncing off the wall
Oo, it didn't work like she said, "It would"
Just like livin' in Hollywood
Just like a bad dream or so it seems
Just like I'm back in emergency
Oo, it didn't work like she said, "It would"
Just like livin' in Hollywood
Just like a bad dream or so it seems
Just like I'm back in emergency
