

Loving Me Back to Life

[Geri Halliwell](#)

I've been looking for love in all the wrong places
Different names, familiar faces
I've watched the moon go through its phases
Now I love myself enough to say It's time to let you go
Gotta let my feelings show
Don't wanna say goodbye
I wanna thank you for loving me back to life Do you keep yourself warm with the bridges you're burning
Another day gone but what are we learning
Thank God for the young, they keep the world turning
To win the war is not to play the game It's time to let you go
Gotta let my feelings show
Don't wanna say goodbye
I wanna thank you for loving me back to life Love to live, live to love, let it go
Learn to live, just forgive and we can grow
Love to live, live to love, let it show
Love to live, just forgive and now I know There's no gold beyond the rainbow
But everybody needs to dream It's time to let you go
Gonna let my feelings show
Don't wanna say goodbye
I wanna thank you It's time to let you go
Gonna let my feelings show
Don't wanna say goodbye
I wanna thank you for loving me back to life For loving me back to life
