Loveless Hearts

Dido

I can find the good news in anything
But without you, thats all gone
No one could have told me how much Id miss you
And how soon the world moves on
How can they not hear me
When I say
Were not safe anymoreDid loveless hearts build the world
Only to tear it apart
How did those gods tempt you to leave
Just when we needed you mostThe sun will rise today as it did yesterday
And Ill keep on going too
But every hour that I get through it breaks my heart
That I am losing more of youDid loveless hearts build the world
Only to tear it apart
How did those gods tempt you to leave
Just when we needed you most
