The Path

MC Miker G

I can see everything clear
My future was written in the past
And it's waiting for me
The sun lights up my steps
And I can see the line
We are a family, this is our destiny
We're not afraid of death, we write our destiny
There's no, there's no regret
When we are all together
We're not afraid of death, we write our destiny
And when I told you everything
You said you don't believe in me
Cause every time that I tried to explain my ambition
You always put an end to the conversation

Cause every fucking time I tried to explain my ambition to you
You never cared about me
This is what makes me feel alive, this is what makes me feel alive
This is what makes me feel alive
All the words that I sing, all the words that I sing
We are a family, this is our destiny
We're not afraid of death, we write our destiny
There's no, there's no regret
When we are all together
We're not afraid of death, we write our destiny
Tonight a star has shown us the way
We came as fucking arsonists
To set this fucking stage on fire now!
This is our road
This is the path
