Losing You

Aquilo

What I have in me
In my mind is you
I would die if we were through
What I'm feeling now
What I'm heading into
I am lost in pain without you
(So cold, so alone)
All I have is you
It is all that I'm breathing for
All I need is you
Now I can't make it through
All the nights I've prayed
Must this all be untrue
I am not prepared to be strong
I just can't believe
I am losing you
Unprepared to carry on
I can't see you walk away
(So cold, so alone)
All I have is you
It is all that I'm breathing for
All I need is you
Now I can't make it through

I am losing you forever
I am lost in pain without you
I am leaving ground forever
(Forever)
Distant, so far, destiny is selecting me
I can't be strong, life is disconnecting me
Now loneliness infecting me,
Gone are the days, you were there, protecting me
(So cold)
So alone
All I have is you
It is all that I'm breathing for
All I need is you
Now I can't make it through
I am losing you forever

I am lost in pain without you
I am leaving ground forever
(Forever)
All I have is you
It is all that I'm breathing for
All I need is you
Now I can't make it through
(It is all that I'm breathing for, breathing for, breathing for)
