Taurus

Dennis Coffey

Kill yourself, it's never been so wrong, yet we can feel the strength
No more lies.
Never, why should all bare for the darkened souls?
Feels we're all dead (x2)
No shutdown, bring a renewal to our life.
Taurus, away from despair, born with no lies.
Panic restrained, let us join and become the bull.
Now we'll find you, gird up thy loins
