

# Parachute

[Chris Stapleton](#)

Street lights along the highway  
Throwing shadows in the dark  
And the memories keep on turning  
To the rhythm of a broken heart You only need a roof when it's raining  
You only need a fire when it's cold  
You only need a drink when the whiskey  
Is the only thing you have left to hold  
Sun comes up and goes back down  
And falling feels like flying till you hit the ground  
Say the word and I'll be there for you  
Baby, I will be your parachute There's a song that I remember  
I never learned to play  
And a lifetime of forgotten words  
I never got to say If you think you're going down  
Just know I will be around
