Never Be the Same

Crave

Verse1
In your light is
where I find who i am
No more sadness no more running
From your plans
All I need is your sweet blood
Cause you cleanse me deep within
All I ever want is you
Cause you are mine
And I am yours
Chorus
And your love
Is all I could ever
hope for
Just one touch
And I will
Never be the same
Never be the same again
Verse 2
All I can say is
that I'm crazy in love with you
No one else can touch me the way you do
You can take all I have
And just throw it all away
I just wanna seek your face
And get lost in you
Bridge
You found me in my sin
And you still called me in
Your loves like nothing I've ever known
