Iron Heart

Blutengel

You can't understand
What you did to meAnd I always try to hide
My aggression deep inside
I feel your helplessness
But I'm not that strongYou took my soul
But you don't understand
It's so fragile and so weak
You killed my heart
With your burning ignorance
But you still think that I'm the one
I'm the one to blameI want to run away from you
Want to leave the tears behind
You know there's nothing you can do
But please keep me in your mindI can't stand your iron heart
I break the chains and run away
I hate ervery word you say
You can never make me stay
