Inhuman

Ritual Sacrifice

It's a rodeo
Welcome to the big show
Round and round and here we go
Can't take it anymore
Hey, let's get it started
Show me how You really want it, come on
I'll give You what you need
Because You're a part of me
And You constantly move
Even though You disapprove
It's just what You do
It's the way You touch me
I'm alive because You touched me
Take away the things that crush me
No one else can save me like You do
You're inhuman
I'm alive because You gave me
Time enough to shake this hate and
Take it all away just like You do
You're inhuman
It's a rodeo
Welcome to the big show
Round and round and here we go
Can't take it anymore
Hey, let's get it started
Show me how You really want it, come on
Hey, let's turn it up
Rip it down and burn it up
Hey, let's get it started
Show me how You really want it, come on
Hey, You're a part of me
I wanna give You what you need
And You constantly move
Even though You disapprove
It's just what You do
It's the way You touch me
I'm alive because You touched me
Take away the things that crush me
No one else can save me like You do

You're inhuman
I'm alive because You gave me
Time enough to shake this hate and
Take it all away just like You do
You're inhuman
Every hour of a pain
And the power every day
Every hour of a pain
And the power every day
Every hour of a pain
And the power every day
Every hour of a pain
And the power every day
Every hour of the day
I'm alive because You touched me
Take away the things that crush me
No one else can save me like You do
You're inhuman
I'm alive because You gave me
Time enough to shake this hate and
Take it all away just like You do
You're inhuman
Human
You're inhuman
Human
