Undone

Suicide City

Necro tube love puritifed glove
Hold me nurse body's learning
Parts are yearning for programs

Cold entering the Fold grab
your hand and Hold don't do
what you're Told

Cutting horses bleeding forces
Silver Skin

Jesus makes you cursed
Jesus why's it hurt
Undone undone I have come
Undone I have Come Undone
I'm undone

Stealing hangers feeling coldsores
now I'm awake sinking pigs feet
ticking raw meat forgive me
touching dry tight chemical fight
paper guns
Ether

Either which way I'm still losing you
I remain with family I knew
Does my mother still think about me
does she cry knowing where I may be
