The Vanished

Skylar Montgomery?
What do you want from me Roger?
I know it was you all along messing around
With my dear Veronica
Wait a minute, you hold hold it right there
Me and that woman love each otherLove, what do you know of love?
We were destined to be together I met her on the beach
Are you out to destroy me?
No Roger that's not what I want to do
I love her, and we're going to be together
Never
