We Are Love

Il Volo

Moonlight draws your colors in the dawn while the sound of silence in the wind feels like an empty song as the rain begins to fall down like a million tears and the heavens shining through the clouds girl i can feel you here don't you ever lose me i will never lose you can't you feel we are love like the earth and ocean we're the same devotion you and me we are love
Je t'aime mi amor lo ti amo we are love
Adoro te tutto il mondo we are love
Sunlight burning deep into the eyes and it blinds the sadness of a tear so we can see the skies when you're ever feeling lonely and life just gets you down hear the beating whispers of my heart i'll know you've come around i will always need you if you ever need me can't you see we are love like the earth and ocean we're the same devotion you and me we are love

Je'taime mi amor lo ti amo we are love
Adoro te tutto il mondo we are love
Lift your hands and let your feelings rise we're like a river flowing to the sea you and me
Je t'aime mi amor lo ti amo we are love
Adoro te tutto il mondo we are love (Twice)
C'est solo l'amore we are love
