Firebird

Chris Warner

Firebird, come into me tonight
Stay awake with me through this dark night
We can ride 'til the morning light
On a bicycle made for two
On a bicycle made for twoHush for the baby he's asleep in the hay
And if we should wake him we'll be turned stony gray
Silence is golden and it's ours today
On a bicycle made for two
On a bicycle made for twoSome come higher, some come low
Some come demon-faced, some come slow
Some come beautiful, helpless and warm
Like the first drop of water after the stormFirebird, stay with me tonight
All the world is asleep, the world is alright
And as long as you're mine we can conquer light
On a bicycle made for two
On a bicycle made for twoFor two
For two
For two
For two
