I Don't Call This Love

Night Ranger

Sometimes I think
There's a hole in my head
And all these memories
Fall out on the bedMaybe it's time
I changed my point of view
Maybe you're right
There's so much we can doSay the word
Say the word
You can have it all
You can have it allLove is all I want to hear
It's what I need from you
You may say I'm wrong
But I don't call this loveHere I am
Feeling like I'm stoned
There's so much to say
I think you outta knowWe get along
For me that's something new
Inside your far out mind
Do you think this too?Say the word
Say the word
We can have it all
We can have it allLove is all I want to hear
It's what I need from you
You may say I'm wrong
But I don't call this loveLife's so strange
So tell me something new
I should be spending
My time with youI should be holding hands with you
I should be making love with youLove is all I want to hear
It's what I need from you
You may say I'm wrong
But I don't call this loveLove is all I want to hear
It's what I need from you
You may say I'm wrong
But I don't call this loveLove is all I want to hear
It's what I need from you
You may say I'm wrong
But I don't call this loveYou may say I'm wrong
But I don't call this love
