Hilo

Ryko

when all is said and done before and in the hollow
set off the nature's hollow cost
from wince and when the day is never hollow
i feel as if i've gotten offare you high
are you lowand left upon the trip you had to follow
a wasted path so cluttered up
to realize as if it somehow mattered
hope you feel you got what it's worthare you high are you lowcan you take mine
care to take mineare you high are you low
