Use Me

Eighth Wonder

Sedate me
Salacious, salty, and sweet
I'm overwhelmed by tasty thoughts of you
Day dream
My body waving the white flag
Take me (yea babe)
Now I know I'm sober
It's just so profound
That every wall I built up
Has come crashing down
Don't the waves pull the sand
Don't the moon pull the tide (babe)
I love you
Use me (yeah)
Wanna give you control
With the lights off
If I could just let go
Forgive me, it's the very first time
And I'm nervous
Can I trust you?
