Holding On To You

Peter Frampton

I'll be there where the music goes
I'll be there where there's singing
Working out my life where the feeling's right
Well, the years keep rolling on
But my heart is strong, I'm holding on, yeah
I won't be letting go
I just started to hold on harder to you
I won't be letting go
I just wanted you to know, yeah
I won't be letting go
I just started to hold on harder to you, to you, yeah
All our songs come around again
And our world's ever turning
Somehow everyday there's another way
Ooh, when my soul's in place
Every song will trace your smiling face, baby
I won't be letting go
I just started to hold on harder to you
I won't be letting go
I just wanted you to know
I won't be letting go
I just started to hold on harder to you, to you
All the music that I haven't made
Keeps my soul alive
Gotta make it, for only the song survives, yeah
Hold on to you, to you, yeah, yeah
I won't be letting go
I just started to hold on harder to you
I won't be letting go
I just wanted you to know
I won't be letting go
I just started to hold on harder to you
I won't be letting go
I'm holding on to you
