Naked

Tully On Tully

Stay with me
While we feel the need
To escape from this, no need,
No need to watch itBreak away
From this manic phase
You will have to stay when I
When I get through toYou and I could never really make it
But you know I, oh I look better nakedAll I can give you is all that Ive got
Ive got nothing to hold you away from the dark if you leaveHold your ground
While you wonder how
It is only now that you,
That you would warm toMe and you
Is a fading truth
That was never new I gave
I gave it all toYou and I could never really make it
But you know I, oh I look better nakedAll I can give you is all that Ive got
Ive got nothing to hold you away from the dark if you leaveAll I can give you is all that Ive got
Ive got nothing to hold you away from the darkSomething inside you is leading me blind
I am searching for why you would leave me alone in the dark
