Way Out

Dan Webb

I did not know the error of your ways
I went and fell, fell down onto my knees
You picked me up and dragged me up on stage
I did not know that it was just a phaseWay outta my league
Way outThe memories of all the things we shared
Keeps me up late, giving me nightmares
Exchanged a look, feeling scared but got no doubt
I am way outI'll try not to go crashing through your window
