

Roses

Dirty Vegas

So here we are, we've come this far
Its never been so good
Nothing ever lasts forever
So maybe now we should Try an' hold on to what we got
'Coz the only thing worth living for is love So live a dream, forever it means
Treat money like a God
Coming clean for the part of the scenes
Now the devil's in your blood When were running out of luck
Seems the only thing worth living for is love So come on take my hand
We can go anywhere
Can you see what we've got?
'Coz the only thing worth living for is love So come on take my hand
We can go anywhere
Can you see what we've got?
'Coz the only thing worth living for is love An' when at last our time is up
Youll see the only thing worth living for is love So come on take my hand
We can go anywhere
Can you see what we've got?
'Coz the only thing worth living for is love So come on take my hand
We can go anywhere
Can you see what we've got?
'Coz the only thing worth living for is love, is love Its the only thing worth living for
Its the only thing worth living for
Its the only thing worth living for
Its the only thing worth living for is love
