The One

Garbage

Yeah right from the start you had me hooked
And I knew I was falling
And sure you had me sussed
You worked me out
You took me right out your doubt
Call me a lawyer
I want to micro manage
I need a hit man
Get me the operator
Call me a doctor I cannot lose control
There must be someone
A robot, a terminator?
He got me eye balled
He got me tied down
He got me roller coaster

Help me man down
Don't wanna talk about it
I know a lot about it
He got me on the ropes and I don't like it
You might be the one for me
You might be the one
The one
You know what I want
You see me sweat and lose all confidence
And yeah you mess me up
I'm back to front
You know I want you don't you?
You might be the one for me
You might be the one
The one
