Shivers

Kal Lavelle

Got a hundred kisses I wanna taste you
got a hundred places I wanna take you
you give me shivers up my spine
you leave me breathless all the time
I got this funny feelin inside of meHoly God, you give me shivers up my spine the lot
and when I wanna fall asleep I can't
cause when you're lyin' next to me
I want to kiss you again and againOh my God, you've got me crawlin' on my knees the lot
and if you were to say that you'd leave
I'd throw my eyes to heaven
and I'd plead, don't let go of meAnd I'm not a fool I know you're trouble
but I can't fight the inevitable
my hands are up against the wall
and as I rise I start to fall
it's not my fault that I want moreHoly God, you give me shivers up my spine the lot
and when I wanna fall asleep I can't
cause when you're lyin' next to me
I want to kiss you again and againOh my God, you've got me crawlin' on my knees the lot
and if you were to say that you'd leave
I'd throw my eyes to heaven
and I'd plead, don't let go of meDanger oh yeh you spell danger to me
but you gotta get burned before you'll ever learn
before you'll ever learn
danger oh yeh you spell danger to me
but come on and burn come on and burn
cause I wanna learnHoly God, you give me shivers up my spine the lot
and when I wanna fall asleep I can't
cause when you're lyin' next to me
I want to kiss you again and againOh my God, you've got me crawlin' on my knees the lot
and if you were to say that you'd leave
I'd throw my eyes to heaven
and I'd plead, don't let go of me.
