Glow

Tundra

Have you ever tried
Inventing a colour in your mind
Itâ€™s always just what you see with eyes
The spectrum wonâ€™t ever compromise
Wonâ€™t compromise

Weâ€™ve tried taking it slow
But soon the moment will go
I can no longer sit here and watch you glow

I know a girl
She came from some other perfect world
I donâ€™t need to invent her in my mind
I guess she was just a lucky find

Weâ€™ve tried taking it slow
But soon the moment will go
I can no longer sit here and watch you glow
