I'll Let You Drive

Mr. Mister

I drive the night to my destination, locked in my sights in front of me
You've got the map and all the directions, you see all the turns I'd never seeChorus:
I'll let you drive, get me out of here
An' I'll let you drive, drive away my fear
I'll let you drive, get me out of here
I'll let you drive, drive away my fearOn the highway far out of the city, I see the red lights in my mirror dear
We better pull over and talk quickly, find exactly where we go from here(chorus)(Solo)I'll let you driveI'll let you drive, I'll let you drive
I'll let you drive, I'll let you drive, I'll let you drive!
