YES

ASPARAGUS

Do you remeber the day that we first met
I wasn't looking for anything
You asked if I had a man said no it begain
Been amazing ever since

Never thought i'd ever get a change at happiness
Baby since we've been together
I've fallin' in love all over again

Thats why I say yes too anything you need
And yes your where I want too be
Don't you know I love you so
Your everything I need and more
I never want too let you go
Baby boy I love ya

Yes too anything you need
Yes your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yes its you I adore

Now some time has come by
And boy how it flies when your not looking for anything
I say my prayers late at night you stay by my side
Used too be afraid of the love scene
But now that I know better than too run from how I feel
Baby were in this together
You carry my heart and soul with care

I'll always say

Yes too anything you need
Yes your where I want too be
Don't you know I love you soo
Your everything I need and more
I never wanna let you go
Baby boy I love ya

Yes too anything you need
Yes your where I want too be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yess its you I adore

Break it down

Life its what you've givin me
Ever since the first time you layed eyes on me
And your lips said hiii
And I had butterflies deep inside
And forever thats why why why

[Chorus x2:]
I'll say yes too anything you need
And yes your where I want too be
Don't you know I love you so
Your everything I need and more
And I don't want too let you go
Baby boy I love ya

[x2]
Yes too anything you need
Yes your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yes its you I adore

Yeah yeah, yes baby, yes baby, baby

Life its what you've givin me
Ever since the first time you layed eyes on me
And your lips said hiii
And I had butterflies deep inside
And forever thats why why why
I say
