

Death Is Your Saviour

Kreator

In a dark and brutal land
not far from here
Lived a mighty wargod
The slaves were all afraid
No one stood up against him
No one tried
He lived by his sword
Till he died
Mighty war god fight 'til death
Hunt the people let no one rest
Show your planet who is the lord
Take the weapons made to strike
Fight under an immortal command
Spread fear across the land
Always trusting holy rule
Death is your saviour
Spread fear across the sea
Kill yourself to be free
The only commander of the world
Death is your saviour
In the night a constant fight
Death is in the air
Banshees crying through the sky
You don't know where
Look up high the corpses will live
All the genocide
Soldiers march on unholy ground
In front death is riding
Mighty war god fight 'til death
Hunt the people let no one rest
Show your planet who is the lord
Take the weapons made to strike
Death is your saviour
You're gonna die
Burn in the fire
Scream across the sky
Death is your saviour
You're gonna die
All the survivors
Can hear you cry
