Gonna Be Mine

Dane Rumble

I got something that you need
I got something you should see
Come over and talk to me right now
Isn anything you need to bring
I know a way to make your heart sing
There a way to have everything
Oh, don't be shyCHORUS
When you come by
Give me just a little more time
I'm gonna show you why
Why you're gonna be mineWell, it's a tough road out there
If you're with me honey you won't care
Let the bird in the air just fly away
Well, I'll turn the lights down low
Maybe we'll even dance real slow
I know you'll never want to go
Now, give it a tryCHORUS
