I Will Be Free

Nil Lara

Birds in the air, will I keep on hoping for myself
For many years I've been held inside this wishing wellI can't see anymore, I've tried to reason my life
I can't feel anymore, I find it hard to survive
And God will I see the day I will be free, I will be freeIf somebody hears
Then I'm proud I've been a lucky one
But sometimes I fear it's been a waste
And the worst is yet to comeI can't give anymore everything's been taken away
And the ones I adore keep getting farther each day
God let me believe the day I will be free, I will be free
