Summer Lover

Frostbit Blue

Change is comin'
Now we're on our way
We had some good times in our summer days
The sun is shinin' in a sky so blue
When I look in your eyes I fall in love again with you

You know I'm looking for a summer lover
Someone that I can dream on
I'm looking for a summer lover
Someone that I can lean on

Got to warn you
I don't want to fool around
I wanna get to know ya
I never wanna let you down
Be my lover?
Won't you be my friend?
We'll have some good times
We'll learn to laugh and love again

I said I'm looking for a summer lover
Someone that I can dream on
I'm looking for a summer lover
Someone that I can lean on

Have you heard my words tonight?
Are you the one to make it right?

Now I,
I don't wanna hurt you
I don't wanna use and I don't wanna lose you
I wanna get to know the woman in you
The things you like and what you love to do
The sun is shinin' in a sky so blue
When I look in your eyes I fall in love again with you

You know I'm looking for a summer lover
Someone that I can dream on
I'm looking for a summer lover

Someone that I can lean on

I'm looking for a summer lover
Someone that I can dream on
I'm looking for a summer lover
Someone that I can lean on

Yeah, yeah!
Oh, be my summer lover, yeah!
