Rescue Me

St. Lucia

Tell me all your secrets, your secrets, your secrets
Tell me all your secrets, your secrets
'Cause I really don't think, really don't think there's any way
Make me a believer, believer, believer
Make me a believer, believer
'Cause I really don't think, really don't think there's any wayThe rain keeps falling in the dead of the night
The man keeps calling in the dead of the night
Awake 'til morning in the dead of the night
All your finer feelings won't give up 'til it's lightTell me all your secrets, your secrets, your secrets
Tell me all your secrets, your secrets
'Cause I really don't think, really don't think there's any way
Make me a believer, believer, believer
Make me a believer, believer
'Cause I really can't think, really can't think of another way
We can keep on pushing, keep pushing, keep pushing
We can keep on pushing, keep pushing
'Cause money's gonna come, money's gonna go anywayThe rain keeps falling in the dead of the night
The man keeps calling in the dead of the night
The lion's roaring in the dead of the night
All your finer feelings won't give up 'til it's light
The end is coming in the dead of the night
Their eyes are watching in the dead of the night
The wheels are turning in the dead of the night
Keep running through the dark as the snake starts to bite
