Something Better Than Nothing

In Trance 95

Give me something
That's better than nothing
All this talking
As we're walkingI wait with nothing at all
Go to before
I'm waiting for you
I can't take it no more
Scared of the flaws
Walk through the doorI need something
New to do
All this miss youI can't take it no more
Take it no more
Go down to the floor
All these people and me
Only tired to give
And never receiveGive me something
Better than nothing
All this talking
As we're walkingAnd I feel broken in two
These people and me
I'm tired to see
All these people you see
Tired to give
Never receive
