Soap Disco

KaraÂ´s Flowers

The crowd was gettin' old
The disco's back or so I'm told
But we've got nothin' here
Except a tired set of ears and we sayHey mama, I'm something
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of viewThe children had the time
To overthrow the sign
The super children said
They could seeBright lights and clean colors
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of viewBright lights and clean colors
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of viewHey mama, I'm something
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of view
