Dead Flesh Gurl

Mister Monster

Nothing brings out the death in me
Like December snow
No one can make me scream
Like you could make me scream, my loveYou loved to see me bleed
You'd always slip on my blood
Just kill a little kid or two
You'll see what I've been going throughEach sip of wine that I take
Is for love that's lost
Each bottle that I break
Is for you, the girl I loved the mostWhen you said you'd never leave
Your fiendish smile grinned
Now that you're gone again
It made me look and see thatI'm the monster everyone made of me
I'm the one you held so cold
How I'd love to see you're alone
But you're in no ones arms but yoursNow when I feel inside of you
I feel nothing but death
Dead flesh inside of you
With ants and worms and maggots on your breastsTake a look inside of me
There ain't nothing but black
A black heart and colder lungs
Prescilla, now you'll see thatI'm the monster everyone made of me
You created something so cold
And now my Amy thinks she's wrong
But it's no ones fault but yoursThis monster's all your fault
