CHILD

Pierrot

Having a child with a person I don't even know
Jumping up and down in the crowd she got a face full of blow
She caught the sperm in her mouth and then she put it down south
She didn't understand that a burrowing beast would plop out in the pan
She's having a child and she thinks it's such a clever stunt
What she's really gonna get is a claw in the cunt
Things went south that's when I started to fuck in her mouth
She didn't understand that I'm a happy dappy Sammy Davis Jr. man

You wanna get out of your life? Well, go fuck a rock star
Then you can quit your job at the crummy fucking titty bar
You'll be lying on your back next to the wall with your legs in the air
Crowd of fucking doc's coming on like they really don't care
She took that fistful of sperm and crammed it right up her womb
So she could lie with her legs in the air in the hospital room
But there's one thing that the little girl don't understand
That I don't have a dime and I don't give a damn
