Enough [Al Jourgensen Remix]

Gravity Kills

I love the thrill, I love the scene
Imagine you in the white light
It's so beautiful, you watch me bleed
You're stabbing me from inside me nowKneel down and tell me about your world
Tell me something that I don't know
You know nothing about the world around youIt's not enough
(Broken in two)
It's not enough
(Speaking the truth)It's not enough
(Watching me bleed)
It's not enough
(Torn in between)
It's not enoughI'm watching you, distorted view
So beautiful in the white light
It's make believe, all that you see
It's haunting you from inside nowKneel down and tell me about your world
Show me something inside your world
You know nothing about the world around youIt's not enough
(Broken in two)
It's not enough
(Speaking the truth)It's not enough
(Watching me bleed)
It's not enough
(Torn in between)
It's not enough[Incomprehensible]
[Incomprehensible]
[Incomprehensible]
[Incomprehensible]Sometimes in me you are the seed
A dying need in the white light
The simple truth, it speaks to me
It's screaming out from inside nowKneel down and tell me about your world
Tell me something that I don't know
You know nothing about the world around youIt's not enough
(Broken in two)
It's not enough
(Speaking the truth)It's not enough
(Watching me bleed)
It's not enough
(Torn in between)It's not enough

(Broken in two)
It's not enough
(Speaking the truth)It's not enough
(Watching me bleed)
It's not enough
(Torn in between)
It's not enough[Incomprehensible]
[Incomprehensible]
[Incomprehensible]
[Incomprehensible]
