Crystals

Kill Paradise

(Let's go, let's go, let's go.)Red rose I want to hold you close to my nose
Red red rose
Red rose I want to hold you close to my nose
Red roseNow you can play your tricks on kittens
But I just need you now I'm smitten
Now my heart's pitching
Now I got now
No one knows what to do with you now, red rose(Chorus)
Now, why fall in love?
It's only happy faces
And why do you love?
Now, why do I fall in love?
It's only happy faces (now)
You're on the dance floor,
Exactly what you're looking for
Nothing more, nothing moreIs this a trend, you're on your back again
On the curb once again
Fingers in the air
I can understand where we are
So far.And we had the time of our lives
I'm still sad
Kisses under the lights it's a fad
And now I'm dripping with what I had,
With what I had (with what I had)(Repeat chorus 3 times)
