Me & You

DJ Cisco

The words me and you
Never ever sounded so cool
The words me and you
Never ever sounded so cool
You're so, so sweet
You're makin' my teeth hurt, girl
You're makin' my lips work, girl
I'm thinkin' I should tell you that
It takes a girl like you
To turn my head into a pop song
Sung without a tune
It's just du, du, du, du, du, du
Baby, you're my rocky road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop, taste the truth
The words me and you
Never ever sounded so cool
The words me and you
Never ever sounded so cool
You're so so sweet
I've been losin' sleep all week, girl
I've been trippin' over my feet, girl
I'm thinkin' I should tell you that
It takes a girl like you
To turn my head into a pop song
Sung without a tune

It's just du, du, du, du, du, du
Baby, you're my rocky road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop taste the truth
The words me and you
Never ever sounded so cool
The words me and you
Never ever sounded so cool
'Cause she knows just what to say
To brighten up my day, make me feel okay

'Cause she's all of the above
Exactly what I'm dreaming of
I keep losing my footing and stumbling
And falling in love, love, love
It takes a girl like you to break my heart into
A million pieces without a clue it's just you
Du, du, du, du, du, du
Baby, you're my rocky road
My mint chocolate chip and more
Feels like a cavity for sure
But here's the scoop taste the truth
The words me and you
Never ever sounded so cool
The words me and you
Never ever sounded so cool
