Was It Nothing At All

Michael Damian

Driving in my car
With the wind run through your hair
I reach for you now
But you're not thereIt was the perfect time
The perfect place for us to be
The nights were so warm
You were close to me
Was it nothing at all?No more hope of holding your body in the moonlight
Did I fall in love for nothing?
No more hope of touching you feeling you by my side
Did I fall in love for nothing?The music can play
As the sun started to fade
Our dream vacation
Was in my mindJust the other day
I thought I heard you call my name
I wake up, she's gone
There's no one to blame
Was it nothing at all?No more hope of holding your body in the moonlight
Did I fall in love for nothing?
No more hope of touching you feeling you by my side
Did I fall in love for nothing?I tell you right away
I want you back into my life
But if you can't find your way
I would dream of you tonightNo more hope of holding your body in the moonlight
Did I fall in love for nothing?
No more hope of touching you feeling you by my side
Did I fall in love for nothing?No more hope of holding your body in the moonlight
Did I fall in love for nothing?
Was it nothing at all?Just the other day
I thought I heard you call my name
Was it nothing at all?
I wake up, she's gone
