Beg To Differ

Prong

You make the right moves, I beg to differ
Rather be a fool and see things clearer
You found a quick way to fill your pocket
That's the way in a world that's lost it to fall in line
It's meaningless, mindlessness, I beg to differDisharmony amongst all our brothers
That's okay, be true to our grudges
No desire to walk beside you
Nothing positive when forced upon you
(So fall in line)
Just fall in line
It's meaningless, mindlessness I beg to differ
