How Many People Can Say That

Javier Colon

y People Can Say That" Ringtone to your Cell How Many People Can Say That Ringtone
"How Many People Can Say That"
we had a couple hard nights
we had a couple long fights
we had a couple bumps but we're still alright
we made a couple wrong turns
we lived as much as we learned
we made through the fire and we didn't get burned
oh oh oh
that feeling deep inside
it only multiplies
when I'm thinking about you
oh oh oh
baby after all these years
the heartache and the tears
we made it through
tell me something
how many people can say that
how many people can say that
how many people can say that
tell me something
how many people can say that
how many people can say that
how many people can say that
I drove a couple beat-up cars
you made a dollar go so far
shadows all around
but the sun still shines
I sung a couple bad notes
you made a couple bad jokes
we tell it like it is
so we gon' be fine
oh oh oh
that feeling deep inside
it only multiplies
when I'm thinking about you
oh oh oh
baby after all these years
the heartache and the tears

we made it through
tell me something
I cannot live without you
even if I try
you are the only reason I am still inspired
and nothing can change that
