No Place Like Home

Randy Travis

Well there's my easy chair, just sittin' there
I've spent a lot of time
Thinkin' of this perfect love
I know is yours and mineAnd oh, I know how I love that old picture on the wall
Of you and me and the kids
My most favorite times in life
I've spent right here where we liveThere's no place like home
There's no place like home
It just hit me as I was leavin'
There's no place like homeFrom the bedroom, I smell perfume
My favorite kind you wore
And it brings back memories of all those nights
Behind our bedroom doorAnd the saddest thing, I think, I've ever seen
Was my closet all cleaned out
It's sad to think that one must leave
'Coz we can't work things outThere's no place like home
There's no place like home
It just hit me as I was leavin'
There's no place like homeSo, baby, say that I can stay
For just a day or so
Then maybe I can change your mind
And I won't have to goJust look into these baby blues
And tell me it's okay
I love that smile, it drives me wild
No, love won't die todayThere's no place like home
There's no place like home
