1986

Nostradameus

You'll never ever notice
What soon will be coming
Coming for youI'll never forget 'bout
What happened that dayLike always, you treated me
Like I was nothing
Nothing at allI'll show you just what
Has become of meYou say you never meant to
Make me feel that way
But I know you did
But still I'm careful what I sayRevenge is mine
Even if you think
That I have already lost
This battle and this warRevenge is mine
The future won't be yours
And you do not even know
When I'll comeYou robbed me, took my heart
And my soul and my body
You took everything
But I'm back now and I'm stronger
Than ever beforeYou say you never meant to
Make me feel that way
But I know you did
But still I'm careful what I sayRevenge is mine
Even if you think
That I have already lost
This battle and this warRevenge is mine
The future won't be yours
And you do not even know
When I'll comeYou say you never meant to
Make me feel that way
But I know you did
But still I'm careful what I sayRevenge is mine
Even if you think
That I have already lost
This battle and this warRevenge is mine
The future won't be yours
And you do not even know
When I'll comeRevenge is mine
Even if you think

That I have already lost
This battle and this warRevenge is mine
The future won't be yours
And you do not even know
When I'll come
