Fall Around

Smoke & Jackal

If you go, you make a big fall
I want you drunk, and now we're off

Fall around the world with you
I wanna fall around the world with you

I call ya up, you let me down
It feels enough, when you're around

Fall around the world with you
I wanna fall around the world with you

I can't be this old baby
You keep makin' me feel older
Never go i'll go ???
I just want you to take me under
I can feel it takin' me under
I can feel it takin' me under

Fall around the world with you
I wanna fall around the world with you x4
